- Heavy Equipment Moving & Relocation
- Turnkey Relocation Services
- Storage, Crating & Shipping Services

Who We Are

About Us

We were established in 1991 to serve the rigging and equipment moving needs of the greater Houston area. We started with only one truck and one forklift. Since then, we have grown into one of the premier rigging, equipment moving and machinery moving companies serving the needs of our local and national clients. Our 22,000 square foot crane-served-state-of-the-art facility is centered on 4.5 acres just south of the Reliant Stadium. With short and long term storage available inside and outside. Monitored and secured.

CRANE & RIGGING EQUIPMENT CONTRACTORS

Move it the All American way

RIGGING, MACHINERY MOVING & CRANE RENTAL

We know heavy machinery relocation and equipment moving. Our movers and on-site supervisors have the expertise to evaluate and define the scope of the project, select the right people and deliver the job on time and within price, whether we are moving a single piece of equipment, or relocating an entire facility. We are the premier heavy equipment and machinery movers and facility relocation specialists and will provide you with the best value available.

SAFETY & PROFESSIONALISM

We diligently evaluate each moving or relocation project/job and provide you with available options. All our professionals believe in hard work, straight talk, and attentiveness in building and maintaining relationships that offer you, our customer, the best value. We measure success by how many of our first-time clients become long-term relationships or refer us to others. The number is large and growing.

"All American Rigging Company Inc. has delivered many medical diagnostic imaging units for Siemens, including MRs, CT scanners, Cardiac cath labs, radiographic equipment and nuclear medicine.. I have always been very happy with their work and professionalism. They are willing ready and able to tackle any job we give them. We will continue to use them in the future."

*Pauline Komorny-Raymond
Senior Project Manager
Siemens Medical Systems, Inc.*

We welcome the opportunity to work with you on your next project. Please contact us when that next project comes up, let us help you plan a safe cost efficient job. Our estimates are always FREE!

EQUIPMENT AVAILABLE

All American Rigging has forklifts ranging from 5,000 lbs. to 150,000 lbs. Our forklifts are specialty forklifts with low masts, fork extensions, boom attachments and side shift. We also have a 75 ton Trilifter with the ability to set overhead cranes in tight spaces and a boom that is ideal for rigging vertical presses. We have a Grove 60 ton hydraulic truck crane as well as spreader bars and two certified lifting cages. Additionally, we have specialty equipment such as 20 and 30 ton MiniJacks, A-frame gantry systems ranging from 5 tons to 20 tons, power mule bars, etc.
